Front end developer with the capability to build and design a professional web presence. As a student of a fast-paced web development boot camp, I am accustomed to learning new and unfamiliar technologies while quickly becoming proficient. I've successfully developed applications using Agile practices and methods. My knowledge, experience, and talent with modern web technologies make me an excellent addition to any development team.

Projects

Covid City Limits

<http://bit.ly/ccrepo> - <http://bit.ly/covidcitylimits>

Git Project Manager - CSS Designer

Covid City Limits allows users to build their own music festival, and create playlists from the artists.

Learned and used Tailwind CSS in order to quickly design visually appealing components. Used Git branching and Github projects to organize over 180 commits across five developers.

Technologies Used: HTML / CSS /JavaScript, Tailwind CSS, jQuery, YouTube API, Bands in Town API

Weather Dashboard

<http://bit.ly/weatherrepo> - <http://bit.ly/weatherdash>

Developer

Weather Dashboard collects weather information by city name and displays a five day forecast.

Used jQuery and AJAX to access weather data from Open Weather API. Displays familiarity the document object model by using the data to create an engaging user interface.

Technologies Used: HTML / CSS /JavaScript, Bootstrap, jQuery, Open Weather API
