Summary

Web developer with the capability to build and design a professional web presence. As a graduate of a fast-paced web development boot camp, I am accustomed to learning and mastering new technologies. My background in digital media has been useful in implementing audio/video content, and producing well designed user interfaces. I've successfully developed applications using Agile practices and methods. My experience with digital media and talent with modern web technologies make me an excellent addition to any web development team.

Technical Skills

Languages: HTML, CSS, JavaScript, SQL, Git
Libraries / Frameworks: React , Node JS, Express, MySQL, Sequelize, MongoDB, Handlebars, jQuery, Bootstrap
Applications: Visual Studio Code, Adobe Creative Cloud, Figma, Unity, Wwise

Projects

Bucket Budget Planner | bit.ly/bktrepo | bit.ly/budgetbucket
- Users can create a budget for travel locations. Recommends things to do with prices.
- Utilizes a MySQL database using Sequelize as an ORM. I was able to allow users to save information to the database, and authenticate them using Google's Sign In API.
- Technologies - HTML / CSS / JavaScript, Node JS, MySQL, Sequelize, Google Sign In API

Covid City Limits | bit.ly/cclrepo | bit.ly/covidcitylimits
- Allows users to build a music festival, and create playlists from artists and bands.
- Learned and used Tailwind CSS in order to quickly design visually appealing web components. Used Git branching and Github projects to organize over 180 commits across five developers.
- Technologies - HTML / CSS / JavaScript, Tailwind CSS, jQuery, YouTube API, Bands in Town API

Experience

Online Support / Teller   2017– 2020
Mountain America Credit Union, Sandy, UT
Answered over 110 calls per day during the largest website overhaul in ten years, helping to ensure a smooth transition through major technological changes.

Audio/Video Technician   2017– 2020
Centerpoint Church, Orem, UT
Organized equipment and stage design, allowing for a scalable live sound solution for hundreds of attendees.

Education

Full Stack Coding Bootcamp: University of Texas, Austin, TX
A 24-week intensive program focused on gaining technical programming skills in Javascript, JQuery, Bootstrap, Node Js, Express, MySQL, MongoDB, and React.

Digital Media Associates: Utah Valley University, Orem, UT
Focus on a wide variety of digital communications; including web, software, audio, design, and film.
